Subject: carrier costs

----- Message Contents -----

Ray-

Thanks for the response. I'll talk to Beth and see what we need for the costs. I'll get back to you right away. The reason these questions are coming up now is that we are negotiating a CD and the cost issue is very important for the PRPs. They would like some estimate of what past costs are out there and what future costs may be assessed during the life of the CD.

I'll send you a message soon.
